// Highlights

Up to 70 Days Hands-Free Cleaning

- **No-Fuss Auto Empty**
Automatically empties its dustbin after cleaning to keep your hands free
- **4L Sealed Disposable Dust Bag**
Dust stays out of sight for up to 70 days and your hands stay clean†
- **Empties without Residue**
The dock's strong 27000Pa suction power and shortened air duct help empty the dustbin within moments
- **Reduces Untimely Noise Interference**
Auto-adjusts emptying duration and follows do-not-disturb schedules to avoid noisy interruptions

// Highlights

Strong Suction Power, Low Noise

Four vacuum modes with different levels of suction power meet various cleaning needs. With a maximum suction power of 2000Pa, the Tapo Robot Vacuum is ideal for direct, powerful cleaning for carpets and hard floors.

Auto-Boost for Your Carpets

Automatically adjusts the suction power to the max mode when encountering carpets.

Quiet Cleaning

Lowers noise levels down to 53 dB while in use—quieter than a running microwave.[^]

High-Efficiency Path Planning

Smart systematic navigation guides RV10 Plus to organize a neat s-shaped route for higher cleaning efficiency and fewer omissions compared with random-path robotic vacuums.

Thin Enough to Slide In

Slides into hard-to-reach areas with ease thanks to its super-slim 7.9 cm / 3.1 in body.

Anti-Drop Protection

Multiple cliff sensors avoid falls down stairs and ledges.

Mops and Vacuums Simultaneously

Mopping is essential for houses with hard floors which need regular polishing. Vacuuming and mopping in one trip turns your thankless chore time into me time.

Huge Water Tank Capacity

A full-size 300ml water tank covers up to 200 m² / 2100 ft².[§]

3-Level Electronic Mopping

Provides 3 water flows to suit different floor types with consistent and steady water pressure.
