

EZVIZ DL03 Pro

Smart Rim Lock

An internet-connected front door with keyless access

Time to upgrade your home access with keyless and remote unlocking, while undergoing possibly the least hassle with EZVIZ's latest DL03 Pro. With no bridging hub required, the DL03 Pro connects itself directly to your home Wi-Fi for seamless automation, and can work with your EZVIZ cameras for enhanced, visible protection. Unlock your door the way you prefer – by using fingerprints, entering passcodes, swiping a tag, or sliding on your smartphone, even when you're away from home.

Connects to 2.4 GHz Wi-Fi

No Connectivity Hub Needed

Fingerprint Unlocking

Remote EZVIZ App Unlocking & Controls

Real-Time Lock Status Check & Alerts

Multiple Unlock Methods

Smart Integration with EZVIZ Cameras¹

Sturdy Lock Body

Anti-Tamper Alarm

Supports Emergency Power Supply

Always have the key on your fingertip

Unlocking your door has never been so easy. Just place your finger on the scan sensor, and voila! Now you have the key that is unique to you, which cannot be duplicated or lost.

 Processes & stores fingerprints locally

 Stores up to 50 pieces of fingerprints

Pick your own way to unlock the door

It's extremely flexible to enter your home with the help of the DL03 Pro. The lock ensures that every family member, whether tech-savvy or not, can confidently open the door while feeling safe.

Direct Wi-Fi connection for an easily smart front door

There's no need to pay for an extra accessory or a hub to get your lock online before you start enjoying smart, remote controls. Simply pair the DL03 Pro with your home Wi-Fi, and use the EZVIZ App to customize its settings and manage lock activities.

Grant and manage access for any visitor

Enjoy the convenience of granting or revoking access with just a few taps. Whether it's one-time access for a delivery, or recurring access for a house sitter, this smart lock puts you in charge via the EZVIZ app.

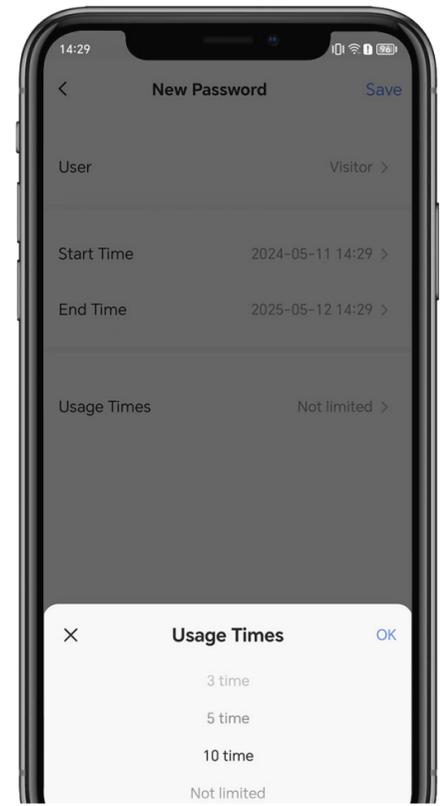

Family members
who visit on holidays

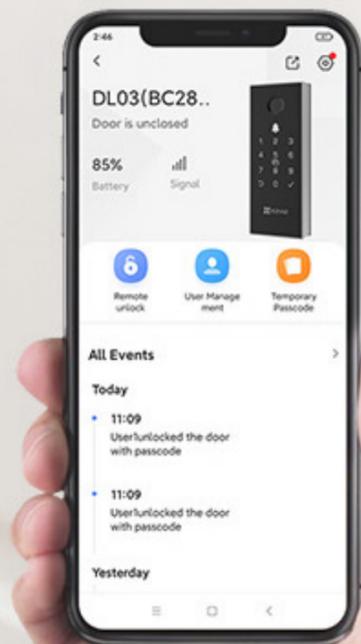

Close friends
who come by often

Babysitters or pet walkers
who walk in regularly

Stay in the know, wherever you go

Get notified of any door activity no matter where you are. You can check history logs or receive instant mobile notifications to learn when your door is opened or left open, or is low on battery. It will also alert you if there are suspicious, repeated attempts to unlock the door, or if someone tries to forcibly remove the lock.

It locks behind you, so you don't have to

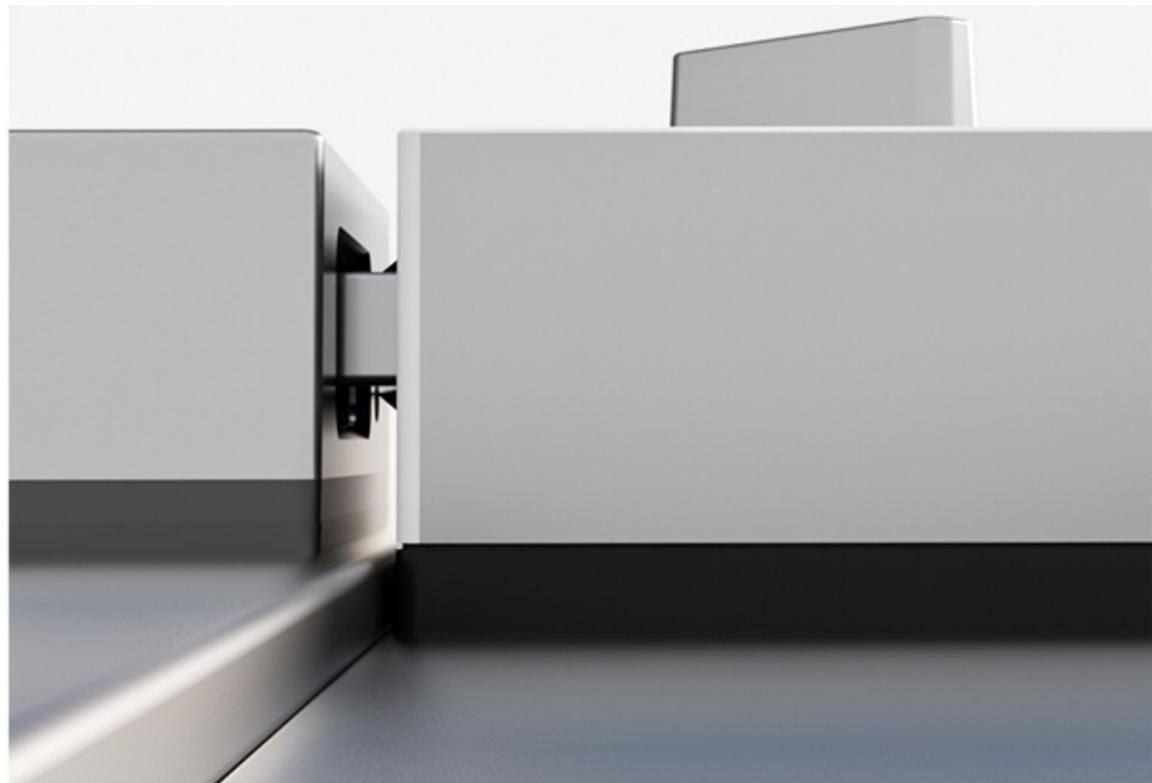

Designed to check the status of the lock latch by itself, the DL03 Pro auto-locks behind you whenever you shut the door. No worries if you accidentally forget to lock the door manually. The DL03 Pro will alert you and lock itself up.

 **Open/Close Status Auto-checking**

 **Auto-lock Safe Design**

 **Door-left-open Alarm**

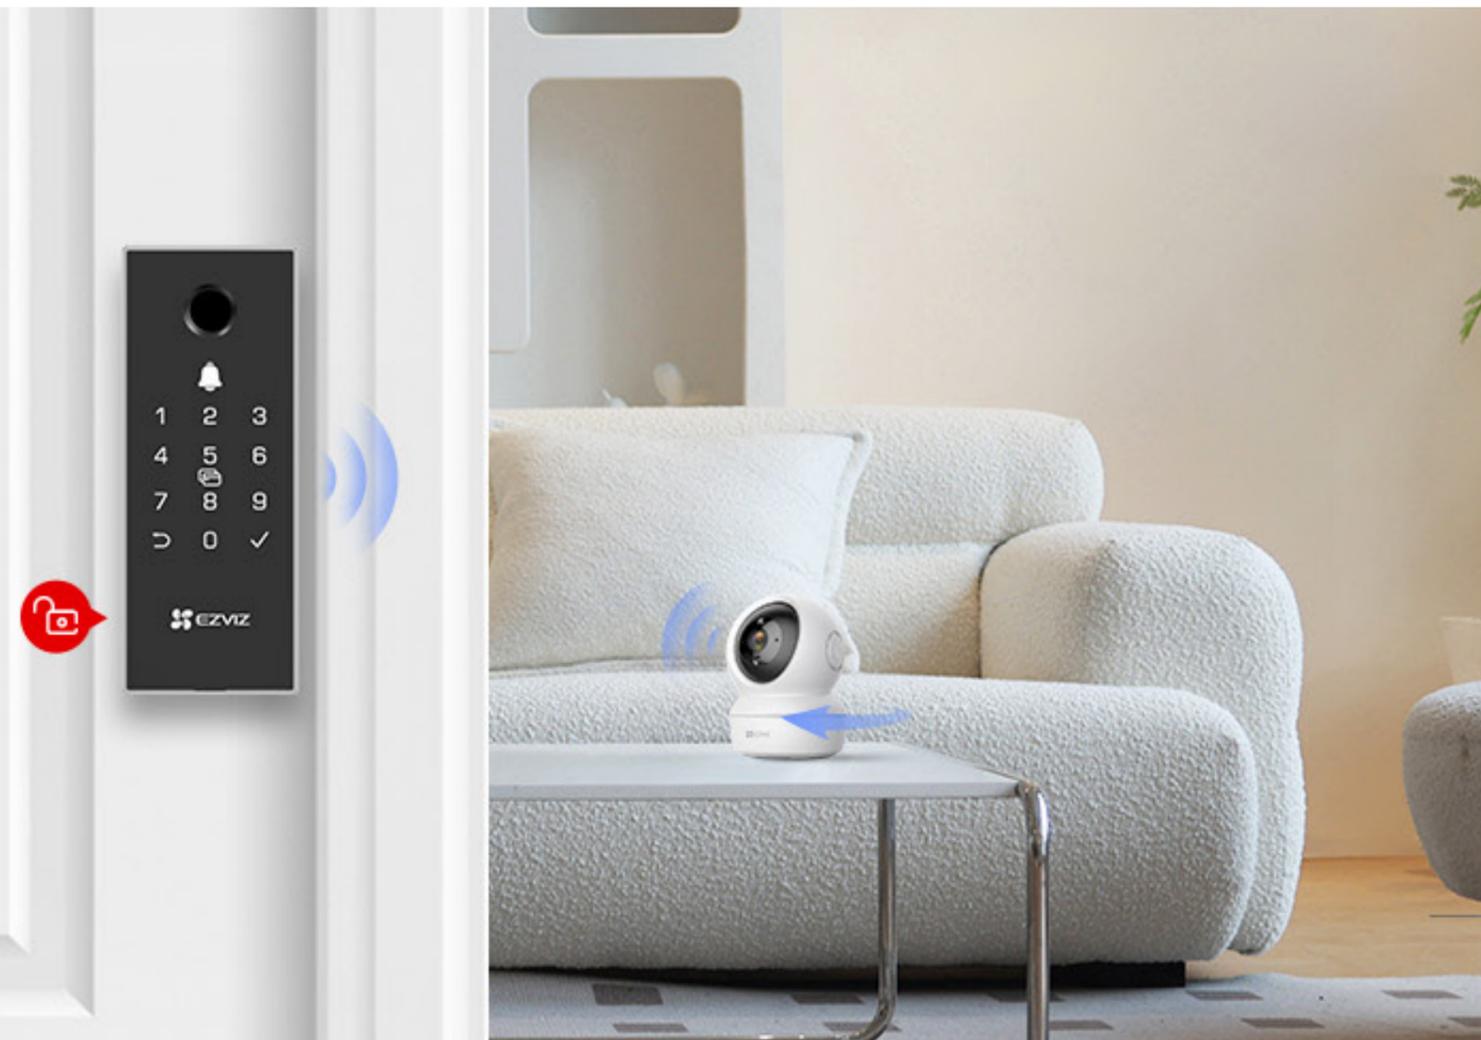

Easy installation made flexible too

Simple to set up straight out of the box, the DL03 Pro ensures a hassle-free, time-saving installation experience. Several shims are included in the box, which help adjust the lock's interior panel onto the door to ensure the latch bolt can properly lock into the strike plate.

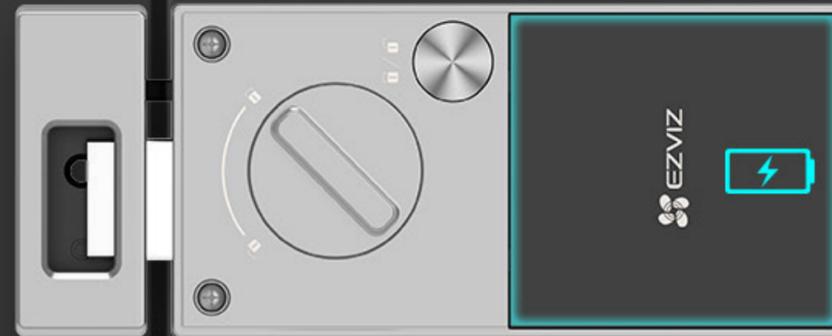

Guard and protect better, with interconnected security

The DL03 Pro can also smartly trigger an interlinked EZVIZ camera¹ to start recording videos, so you not only know when the door gets opened, but also see who enters. By adding an EZVIZ camera, you can effortlessly create an automated, useful home security system.

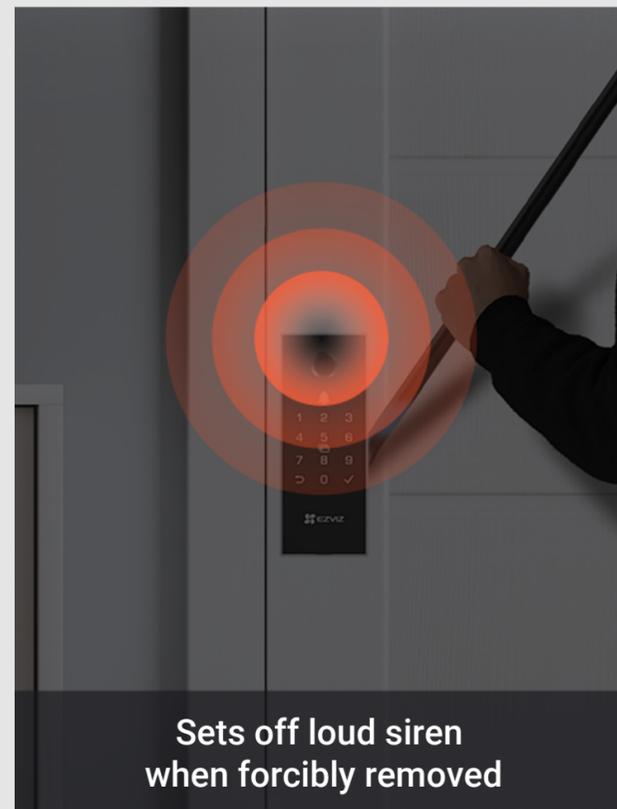

Reliable power for a busy household

The DL03 Pro is powered by four easily replaceable AA batteries to ensure reliable performance even if many family members come and go in your home.

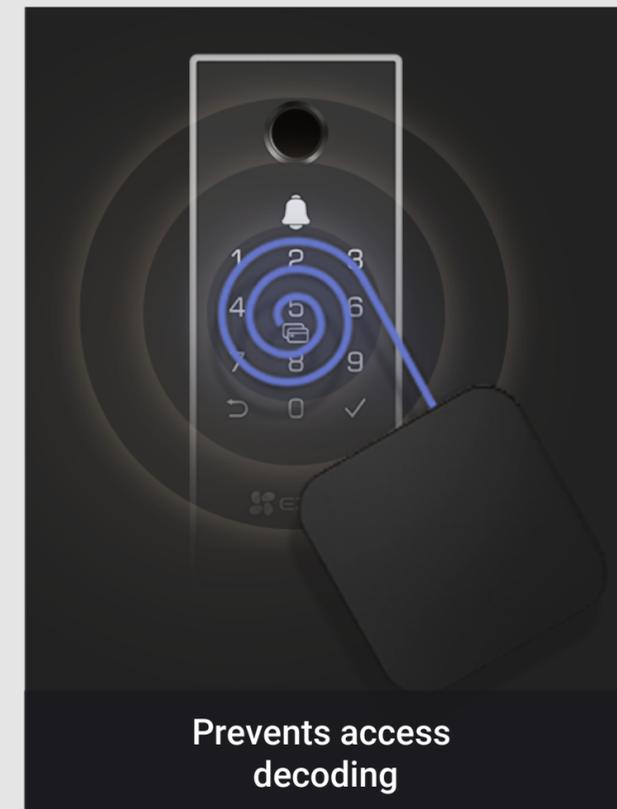

**Emergency
Power Supply**

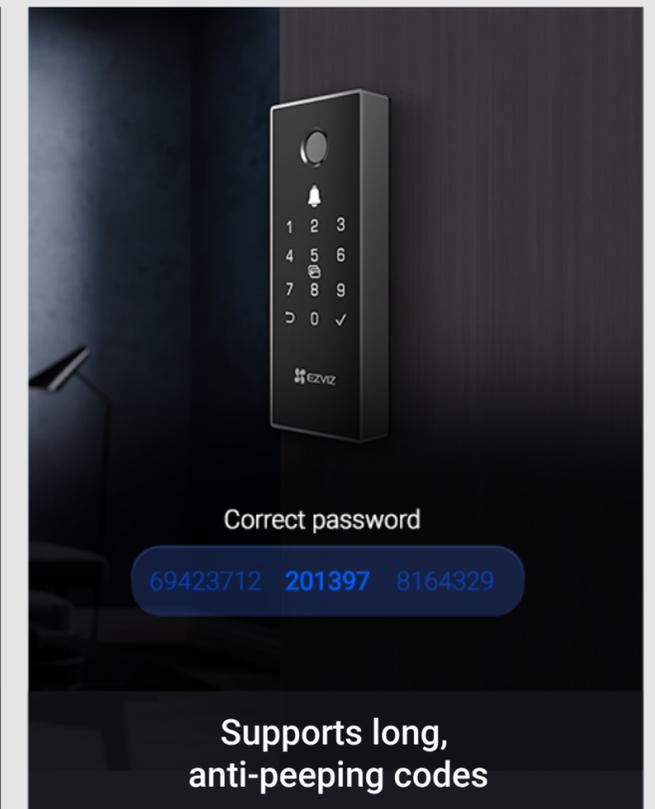

We make it as safe as possible, at multiple levels

Sets off loud siren
when forcibly removed

Prevents access
decoding

Correct password
69423712 201397 8164329

Supports long,
anti-peeping codes

1 The DL03 Pro currently supports the following cameras to automatically start recording a video when the door is opened: H6c, C6N, CP1, TY1, TY2, H3, C8W. The list may grow as EZVIZ launches more compatible products in the future.

Specifications CS-DL03 Pro

Technical Parameters
