### Web Management Page

- 1. Connect your wireless device to the Mobile Wi-Fi. If it is a computer, make sure it is set to obtain an IP address automatically.
- 2. Launch a web browser and visit http://tplinkmifi.net or http://192.168.1.1. Create a password to log in.

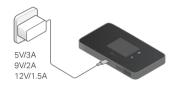

### **AC Power Mode**

AC Power Mode allows you to get higher Wi-Fi power via a power adapter. To change your Mobile Wi-Fi to AC Power Mode, follow these steps:

- 1. Remove the Mobile Wi-Fi's back cover and battery.
- 2. Connect the Mobile Wi-Fi to a power adaper and power it on.

- In AC Power Mode, it's recommended to use the provided power adapter for better performance.
- DO NOT reinstall the battery when switching to AC Power Mode.

## Power Saving Mode

Turn on your Mobile Wi-Fi's power saving mode to quickly prioritize either performance or battery life.

a. By Touchscreen: Menu Screen → Press Power Saving icon.

b. By Web: Login → Find the Battery > Power Saving Mode For details, refer to the user guide at https://www.tp-link.com/support.

### c. By Tether: Login → Find the Battery > Power Saving Mode

Note: Due to Tether app updates, images may differ from your actual user interface.

# EWAN Mode (Wireless Router Mode)

To work in EWAN Mode (Wireless Router Mode), connect the Mobile Wi-Fi to an Ethernet outlet or a modem via an Ethernet cable, and do the following:

- a. By Touchscreen: Menu Screen → Tap Settings > Internet > Internet
   Access Mode, and select Ethernet.
- b. By Web: Login → Go to Advanced > Internet > Internet Access, switch to Ethernet and click Save.
   For details, refer to the user guide at https://www.tp-link.com/support.
- In Ethernet Mode, the WAN/LAN port works as a WAN port.
- In Cellular Mode, the WAN/LAN port works as a LAN Port, and it defaults to be disabled. To enable it, go to Menu > Settings > Device Settings > Port Status.

### Charging Your Mobile Wi-Fi

### Method 1

Via a Wall Outlet (Recommended)

### Method 2

Via a Computer

- ${\bf 0}\,{\,}^{{}_{\phantom{1}}}$  The Battery icon  ${\,\sqsubseteq\,}$  will be solid teal when the Mobile Wi-Fi is charging.
- The power adapter is provided by TP-Link.

## FAQ (Frequently Asked Questions)

#### Q1. What should I do if I cannot access the internet?

- A. Log into the web management page (http://tplinkmifi.net), and check the following:
- Check PIN status
- If the current SIM card status is **PIN Locked**, your SIM card is PIN protected and you need to unlock it using the PIN code provided by your mobile carrier.
- Check SIM card
- Verify that your SIM card is a 5G/4G card and properly inserted.

  Verify that your SIM card is in your internet service provider's service area and has sufficient credit.
- Verify the mobile carrier parameters
- Go to Advanced > Network > Mobile WAN > Dail-up Settings, then verify that the parameters (i.e. APN, username and password) provided by your mobile carrier are correct. If they are incorrect, enter the correct information or create a new profile, then save the settings.

#### Check Data Limit

Go to Advanced > Network > Data Settings to check whether your data usage has exceeded the Total/Monthly allowance.

#### Q2. How do I restore the Mobile Wi-Fi to its factory default settings?

- A1. With the Mobile Wi-Fi powered on, remove the cover, then use a pin to press and hold the Reset button until the screen goes dark.
- A2. Go to Menu > Settings > System Settings, and tap Reset.

Note: Restoring the device to its factory defaults will clear all your settings.

#### Safety Information

- · Keep the device away from water, fire, humidity or hot environments.
- Do not attempt to disassemble, repair, or modify the device. If you need service, please contact us.
- Do not use the device where wireless devices are not allowed.

TP-Link hereby declares that the device is in compliance with the essential requirements and other relevant provisions of directives 2014/53/EU, 2009/125/EC, 2011 /65/EU and (EU) 2015/863.

The original EU Declaration of Conformity may be found at https://www.tp-link.com/en/support/ce TP-Link hereby declares that the device is in compliance with the essential requirements and other relevant provisions of the Radio Equipment Regulations 2017.

The original UK Declaration of Conformity may be found at https://www.tp-link.com/support/ukca

#### CAUTION!

Avoid replacement of a battery with an incorrect type that can defeat a safeguard.

Avoid disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.

Do not leave a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas. Do not leave a battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas. Risk of explosion if the battery is replaced by an incorrect type.
